LOCATION Khabarovsk, Russia · UTC+10 · remote

3D Generalist with 5+ years in commercial CGI. I take a shot from scene assembly to final render: environments, look dev, lighting, animation, VFX and compositing. I create advertising and broadcast films for major Russian brands — Liga Stavok, Fonbet, OZON, Wildberries, NTV. Working in Cinema 4D, Blender and Unreal Engine, bringing AI tools into production where they speed things up without losing quality.
